

SAUMYA BANSAL

A web-developer

An aspiring web-developer with extensive experience of creating front-end design of multi-page and responsive websites. My passion lies in creating captivating website designs and implementing them through front-end development. I take pride in staying up-to date with the latest designs. I strive to create intuitive and seamless browsing experience.

○ July/2023 - Present

Codsoft Internship

A project based-internship program that offers you to test your skills and made mutiple projects

My Projects

My-portfolio

A well structured website that tells the experience, skills and projects with scrolling animation layout making it more impressive.

Gym-website

A pop-out photo effects can add dynamism to your site and give it a 3D appearance. It helps prospective clients feel they can work to solve broader life problems by starting an exercise program.

Techstarks

A perfect landing page with user interactive interface. The animation that pops up attract the clients to join the tech-hub.

Tic-tac-toe

A fun game, where one starts playing the game and both players make their moves in consecutive turns. The player who makes a straight 3-block chain wins the game. This game is built on the front-end using simple logic and validation checks where the winning celebration is appealing.

Calculator

A simple calculator that perform calculations effortlessly. An attractive page makes it more engaging to perform calculations .
